Awards

M. ZAKRIA

Experience

Projects:

Noma – AI-Powered Accounting Web Application

- Developed an AI-driven web platform to assist businesses in tracking sales and purchase data
- Built as part of a hackathon project using AI-assisted development tools

Scientific Calculator (Semester Project)

- Designed and implemented a scientific calculator capable of handling advanced mathematical operations
- Supported functions including trigonometry, logarithms, and complex expressions
- Developed as a foundational programming project demonstrating problem-solving skills

2D Racing Game – Object-Oriented Programming (C++) (In Progress)

- Developing a 2D racing game using Object-Oriented Programming (OOP) concepts in C++
- Implementing core features such as player movement, collision detection, and game mechanics
- Applying OOP principles including classes, inheritance, and modular design

Education

2025-present

Bachelor of Artificial Intelligence

Ghulam Ishaq Khan
Institute of Engineering
and technology

2023-2025

Intermediate in Computer Science

Tufail Shaheed Army
Public College

2021-2023

Matric with Computer Science

Army Public School
